Objective

To become a software developer. Interests include Research and Development.

Skills

- Programming Languages
Java | Python | Javascript | C++ | C | PHP
- Linux Operating System
- DBMS
- Web Development (HTML,CSS,JS)
- Android App Development (Android Studio, Java, Firebase)

Experience

1. Training and internship at IBase Technologies, Nagpur for 1month in development using python and Mysql database and an accompanying project. | July 2022 to August 2022
2. Social media and Marketing Lead at Microsoft Learn Student Chapter, PCCoE
August 2024-ongoing

Projects

1.ListenIt: Text to speech

Built an android app that converts PDF, image and regular text to audio files that are stored within the user's profile on the app. Android studio | Firebase | Java

2.Text to audio converter using python

Built similar text to audio converter that converts plain text into audio and saves it into a database. Python | Mysql

3.Data Science Project on Sales Prediction and Customer Segmentation

A Data Science project to predict sales of dairy products by segmenting customers demographically.

4.Courier Service Management

The Courier Management System (CMS), built with SQL, Node.js, and Express.js, streamlines and automates courier services by providing efficient parcel tracking, user management, and organization registration. It offers a seamless backend for managing courier records, boosting operational efficiency and real-time parcel monitoring.
